Utility District Is Granted Loan For Expansion Project

New capital in the amount of $367,000 is now available to Truckee Public Utility District, according to an announcement by Edward Aweeka, president of the board of directors of the district. Aweeka said that he had signed certificates evidencing a loan of such funds by the federal Rural Electrification Administration in Washington.

Issuance of the certificates climaxes a long struggle by the district to obtain such funds. Appropriated by congress to facilitate electric service in unincorporated areas, they bear an interest rate of only two per cent, and are repayable over a 30 year period.

Aweeka pointed out that no agency, public or private, can finance electric improvements on such favorable terms except from this federal program. The Truckee area will receive better and cheaper electric service as a result, he said.

Utility District board members paid high tribute to State Senator Paul J. Lunardi who guided an enabling act through the state legislature, and to Congressman Harold T. Johnson for his coordination of the districts activities with Washington officials.

Taking note of criticism of the form of the resolution issuing the certificates made by two former board members, board members declared that the resolution had been approved by the district's consulting attorney, who has had substantial experience in such matters. He said that the form was based on that devised for Sacramento Municipal Utility District when that agency borrowed the same kind of funds, with additions resulting from new legislation since that date.

The loan program has been in force for more than 25 years, he noted, and there is no record of the REA attempting to exercise any more control over the borrower than that required for the security of its investment. On the other hand, REA maintains a technical staff to assist its borrowers, which is another substantial advantage of the program to those participating in it.

State Funds For Floriston Road Given Approval

The California Highway Commission today allocated $22,500 in state highway funds toward the cost of a railroad grade separation project at Floriston Road in Nevada County.

The allocation was from the special railroad grade separation fund which is applied to projects on local roads and streets not included in the state highway system.

According to law, $5,000,000 in state highway funds is made available each year to help finance local grade separation projects included on an annual statewide priority list established by the state public utilities commission.

The project is number one in priority on the PUC 1964 list, and calls for construction of two new underpasses (eastbound and westbound) at the Southern Pacific Company tracks at Floriston Road. These one-way underpasses will provide clear widths of 10 feet, and school buses will be among the principal users.

Total estimated cost of the project is $50,000, with the state and county each paying $22,500, and the Southern Pacific Company contributing 10%, or $5,000.

BOTTOMS UP NOW IN LAST WEEK AT CLUB

Now in its final week on the stage of the Topaz Room in North Lake Tahoe's Nevada Lodge is the surprise hit musical comedy revue, Bottoms Up.

The riotous review featuring spicy-but-nice skits and blackouts tailored for the Tahoe funseeker bears a startling resemblance to the Hollywood favorite of a few years ago . . . the famous Ken Murray's Blackouts.

Blast Victim Was Former Truckee School Student

Robert Louis Becker, 14, one of the two boys killed Sunday when a bullet exploded half a ton of dynamite in a Southern Pacific Company storage house a mile from Colfax, was a son of Mr. and Mrs. R. L. Becker, former Truckee residents, now residing at Colfax.

Becker and Leroy Sanders, 15, also of Colfax, were hunting in the vicinity of the dynamite cache and apparently one of them fired into the building. They were blown to bits.

The Beckers formerly lived at the Rams Head on Donner Lake while he was employed on the freeway construction as a foreman. They left here two years ago after being here for about a year. The blast victim attended the local elementary school.

No one else was injured in the explosion although windows were shattered two miles distant and the noise was heard as far as Alta, 14 miles distant.

Officers said a train had passed the spot only 50 yards from the shed only a minute before the blast.

The Sanders boy was the son of Mr. and Mrs. Earl Sanders of Colfax. A third boy, Michael Walker, son of Mrs. William B. Walker, of Colfax, had planned to accompany the other two boys on the hunt, but was prevented from doing so when his mother insisted he attaend church services.

The Beckers have another son and a daughter.

Although the deceased and her late husband, Joe Lewis, were a successful business couple and interested in community affairs for many years, her friends were not able to supply much information of her early background, other than she was believed to have been born in Michigan and had two sisters, one is said to be Mrs. Joe Tofanelle of Oakland.

The Bergemann Funeral Home of Nevada City will hold the last rites at 10:30 Friday morning, burial to take place at 2 p.m. in the Colfax Cemetery, beside her husband who died in 1923.

Greyhound Seeks To Stop Services To Resort Areas

Vigorous protests to a proposal by Greyhound Lines to reroute its operations over the new freeway, eliminating service to many small areas now served by the line, are expected to be voiced at a hearing scheduled by the California Public Utilities Commission at Donner Lake Lodge at 10 a. m. next Thursday, October 8.

Mrs. Ann Nesbitt of Donner Lake Lodge, received a notification of the hearing and is inviting all interested persons to attend and be heard.

The application reads as follows:

"Before the Public Utilities Commission of the State of California.

"Application of Greyhound Lines, Inc., for authority to reroute its operations over freeway U. S. Highway (Interstate Highway 80): between Donner Park Overcrossing and Soda Springs Interchange, bypassing Donner Lake, Summit (Placer County), Norden, Soda Springs; (b) between Hampshire Rocks, a point just east of Rainbow Tavern, and Putts Lake Interchange, bypassing Rainbow Tavern, Big Bend Ranger Station, Cisco Grove and Emigrant Gap; (c) to substitute bus turnout facilities at Donner Lake, Soda Springs, Cisco and Putts Lake in lieu of the present tariff points on the former U. S. 40 above referred to as being bypassed; Nevada and Placer Counties; and for incidental relief, including highway renumbering."

LUNARDI TO ASSIST

State Senator Paul J. Lunardi, advised of the proposed action, said he is investigating and will oppose the elimination of public service to the resorts, many of which are dependent upon public transportation.

Most community organizations in the region are expected to have representatives at the hearing next Thursday to voice opposition.

It is not difficult to visualize the problems which will face the winter and summer resorts by the elimination of public transportation to the various areas, particularly the Donner Summit and Donner Lake communities, which have been served by buses for many years.

Examiner Thompson will conduct the hearing at Donner Lodge next week.

Graham Discusses Local Road Plans

Robert Graham, Nevada County road commissioner, was a guest of the Truckee Donner Chamber of Commerce at yesterday's meeting held at Smart's. He spoke briefly on the road problems in this area and answered numerous questions on the subject.

He advised the members that the area is currently well equipped to handle the snow removal this coming winter, in view of the fact that the Donner Lake roads will be maintained by the state until they are turned over to the county next June.

Arrangements will then be made, he said, to maintain them.

Other roads in the area, he explained, must be taken into the county system before they can be maintained by the county crews.

He said that the county would continue to paint the parking strips on the main street.

At present, the commissioner said, there are two rotary plows and four push plows in Truckee for snow removal and another rotary is on stand-by duty in the western end of the county and can be brought here if necessary.

Graham said he would investigate the possibility of installing adequate signs at the McIver overpass on the freeway to prevent numerous cars from proceeding up High street when attempting to get on an east-bound freeway.

There is no eastbound ramp at that location and motorists not familiar with the roads are very likely to become confused. The signing at that particular point is far from satisfactory and Graham said he would determine whether it is the obligation of the county or state to install the signs necessary.

LAKE LEVEL

Lake Tahoe's level, reported this week by Daryl DeWalt at Tahoe City was 6225.31 with the outflow from the dam at 225 cubic feet. Temperature high for the week was 75 degrees on Saturday and low was 36 degrees on the 26 and 28 of September.

GOLF PLAYERS

Local golfers who played in the John Asquaga tournament at Reno golf course during the week end included Elden Tonini, Robert Leamon, Angelo Besio, Ed Frates and Sam Levitt. The latter two won awards at the close. The men and their wives were also Sunday dinner guests of the sponsoring Nugget.

With the hazardous fire conditions throughout the state, we of the North Shore should be doubly thankful for an efficient fire protection district. Friday the Lookout discovered a fire which required three forestry units and two Kings Beach units along with the forestry helicopter watching, to bring under control. It is thought to have been caused by cigarettes under some old logs in the forest in back of the post office. Fortunately no damage was done outside of burning the old logs. However it is a warning that should be heeded, early discovery averted disaster.

APPLICANTS MAY FILE FOR NROTC TRAINING

Applications are now available for the navy's nineteenth annual NROTC qualification test, according to James Brehler, counselor at the Tahoe Truckee High School. The nationwide examination will be given December 12, and all eligible male high school seniors and graduates may apply.

On the basis of this test, personal interviews, physical examinations, and other factors, Brehler explained, over 2000 young men will be given college educations as midshipmen in NROTC units in 52 well-known colleges and universities throughout the country.

Registration for the test will close November 20. Informational bulletins and applications are available from Brehler or the nearest U. S. Navy recruiting station. A successful applicant receives financial-aid for four years of college This includes tuition, books, uniforms, miscellaneous expenses, and a $50 per month retainer fee.

After successfully completing college degree requirements and naval science training, NROTC midshipmen become commissioned officers in the U. S. Navy or Marine Corps. During their training, regular NROTC midshipmen enjoy three summer cruises with various naval units, including visits to foreign ports.

These cruises help them learn more about the variety of interesting and challenging opportunities available to them as naval officers. Male citizens of the United States who will be over 17 but not yet 21 on June 30, 1965, and who are now high school seniors or graduates, are eligible to apply for the December 12, 1964, NROTC qualifying test.

DONNER DOINGS

Guess the most startling news of late is the intent of the Greyhound Lines, Inc., to reroute busses over the new freeway and bypass Donner Lake as well as the Summit, Norden, Soda Springs, Rainbow Tavern, Big Bend, Cisco and Emigrant Gap. A hearing has been set for Thursday, October 8 at 10 a. m. in the dining room of Donner Lake Lodge, so anyone who wishes to protest this please attend. Certainly an arrangement should be made to have at least one or two busses serve these areas each day.

* * *

The new parking area by the football field will certainly be an improvement and cut down the dust. Now the baseball players are hoping that another diamond can be set up to use during their season. The two that have been available are not enough.

* * *

The Joseph Inauen's have been contacting cabin owners in the Donner Ski Haven and Emmens Tract to see how many wish to have snow removed from the roads in those areas. If interested write to him at 101 Hawthorne Way, San Rafael and enclose a check for $25 made payable to R. L. Harris before October 15th.

* * *

The Capitol in downtown Truckee has been picked for the Harvest Moon Ball to be held October 24th at 8 p. m. Sponsored by the DLVFDLA with live music, refreshments.

* * *

Terry Marquette drove all the way down from Humbolt State to go deer hunting with his dad Jack last weekend and both were lucky enough to bring home bucks. Jack caught some nice size Kokonee last week right close to their Donner Shore Resort.

* * *

"Wog" Horton will be in the hospital in Reno for several days recovering from a gall bladder operation, so his wife Lottie will be commuting from Donner Lake to see him.

* * *

A new ski area is being cleared by Brad Board of Sugar Bowl and Frazer West of Concord and Squaw Valley. They have been busy the last month cutting trees. The new area is being leased by Ian MacKinlay an Orinda architect and Bill Evers a San Francisco attorney and is located on the southeast side of the new freeway above Soda Springs, called Boreal Ridge. Plans call for five chair lifts and hopes are that two of them will be installed for the 1965-66 season. Boreal Ridge will be a development for beginning and family skiers, with parking for 4,000 cars.

* * *

A new truck has been ordered by the Donner Lake Volunteer Fire Department. It will have a 5-speed transmission, a 300 gallon water tank and foam fire fighting equipment, and will also carry first aid supplies and a resuscitator.

Letters are being sent out now to Donner Lake property owners asking for donations with the slogan: "a little now may means a lot later!"

HERE'S WHAT PROPOSITION 17, THE "SKELETON-CREW" SCHEME, WOULD DO:

WIPE OUT public supervision of railroad safety in California ☐ **DEPRIVE** the Public Utilities Commission and the Legislature of their rights to protect public safety ☐ **KILL** California's Minimum Safe Crew Law ☐ **LEGALIZE** "skeleton crews" ☐ **SURRENDER** to the railroads control over train safety practices ☐ **FREEZE** into the State Constitution the sole right of the railroads to decide safe crew requirements ☐ **PERMIT** the railroads to put their profits before your safety ☐ **INCREASE** sharply the chance of disastrous train wrecks in California.

[FOR THE RECORD: PRESIDENTS EISENHOWER, KENNEDY AND JOHNSON HAVE ALWAYS SUPPORTED RAILROAD SAFETY LAWS— *the California Minimum Crew Law is just such a safety measure!*]

On election day, Tuesday, Nov. 3rd, the railroad companies are asking you, the people of California, to vote away your rights as citizens...*to hand over to the railroads full power to decide the number of train crewmen necessary for public safety.*

This vital control over railroad safety laws is now held by your elected State Legislature and by the Public Utilities Commission. Proposition 17, the "skeleton-crew scheme" sponsored by the powerful California Railroad Association, would repeal California's Minimum Crew Law—a safety law which has prevented untold loss in lives and property ...and given California one of the best railroad safety records in the nation.

At the same time, *Prop. 17 would eliminate public supervision of railroad safety in California.* It would leave the railroads completely free to cut the size of train crews as they see fit...*below* the present safe minimums now prescribed by law. *In short, it would leave the question of public safety vs. private profit solely in the hands of the railroads.*

VOTE NO ON 17

DON'T LET THE RAILROADS GAMBLE WITH YOUR SAFETY!
